
Fifth Grade Flash

Vol. 11, No. 8

Mrs. Latteman's Class

October 20, 2008

Power School

Please check Power School for grade updates and indications of missing work. The planner is another place to see details of what is happening in the classroom. We ask that you sign the planner daily in order to keep you informed. It is the student's responsibility to use the planner as we have set forth, and your child should be discussing with you any assignments he/she has not completed. These are to be highlighted in the planner and become homework to be turned in the following day unless otherwise indicated with a due date, for example. I will make every effort to check planners, and I trust that you will do the same. Our partnership will ensure the best possible outcome for the students. Thanks for your support!

Science

We will finish the **water cycle** this week and start **weather**. Students can look forward to another hands-on experiment!

Religion

We will have a test on Thursday, Oct. 23, over Chapter 6. Again, I encourage the students to get online at FaithFirst.com and click on Chapter Reviews to study for the test. It is really making a positive impact on grades!

October Book Report

This month's book genre is biography. Students are to be preparing a magazine article featuring their subject. The format has been discussed in class and the needed materials are available in the classroom when students are ready. Articles can be typed or neatly handwritten. Illustrations should be neatly done by the student not a printed image from the internet. Please check with your child on their progress.

Calendar

10-23 CiCi's Pizza Night 4:30-8:00

10-31 Penny Carnival

Have a good week! - Mrs. Latteman
